MDS 3.0 Plus

The MDS 3.0 Plus module provides for easy-to-create MDS assessments that are ready for electronic transmission to the State. The system is integrated into the Electronic Health Record including the Point of Care touchscreen ADL data entry module, Care Plans and Restorative Nursing modules.

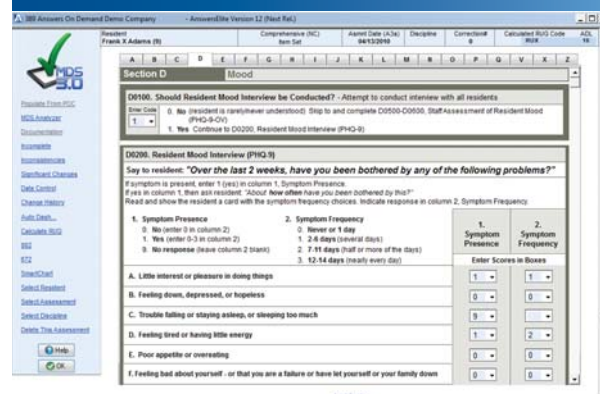

Functions and features:

- Quality Indicators and Quality Measures are immediately displayed on the entry screen.
- Incomplete and inconsistencies audit feature allows for instant completion and cross checking of each section.
- The “Changes” button displays measurable differences in a resident’s condition between assessments.
- It features a familiar visual format as a paper MDS that all users will recognize and be more comfortable using.
- RUG scores are re-calculated in real-time and RUG scores are automatically transferred into the 1st & 3rd Party Billing area.

Key Features

- Integrated to your AOD Billing System, Clinicals and Financials
- Reduces the amount of time required to address all the paperwork issues.
- Promotes improved resident outcomes, ongoing regulatory compliance and continuous survey readiness.

- Access to online RAI Manual from the module.
- Provides for easy batching of electronic files.
- Integrates with a number of MDS Analyzer and Scrubber products in the marketplace.

Plus Features:

- Assessment Due Calendar (shown at left), Graphical ARD Optimizer, RUG Score & ADL Score Highlighting, MDS Scheduling and task list & Other Graphical MDS Management Tools.

Integrates with:

- Admissions & Census, 1st & 3rd Party Billing, Care Plans, Restorative Nursing, Point of Care, User Defined Forms (UDEMR) and Rehab Services.
