

Rehab Services

The Rehab Services is a tool to manage your therapy services from the initial Physician's Order all the way through to the billing process. The Rehab Services offers an industry leading integrated solution to your Rehab needs.

Chart Evaluation allows easy access to Client and Screening information, Intakes and Plan of Treatment and Conference, Summary and Progress Notes. Unique reports and target minutes assist therapists in managing the appropriate utilization of therapy services.

With its own Clinical, Scheduling and Billing capabilities, Rehab Services may also be used in a stand-alone environment.

Other features include:

- User Defined 700 and 701 forms for maximum flexibility in data collection.
- Display of Task List showing POT Certification Due, signatures due (Therapist, Physician, Treatment Session, etc) Supervisor Visit Due and more.
- Daily documentation on specific modalities is automated with Billing.
- Automatically create the Resident Care Plan for the Therapy component.
- Offers standing Physician Orders that facilitate quick, accurate orders and clarifications.
- Creates the clarification order and allows for the tracking of clarification orders.
- Client and staff scheduling with calendars for treatment session. Also creates the "Schedule Board".
- Populates Section P & T from the treatment session and treatment schedule.
- Recommended ARD dates with Lookback capabilities.
- Modality notes that update the Plan of Care and "verify" medical necessity for treatment.
- Electronic signatures with "supervisor" sign off functionality.
- "Treatment Summary" at a glance with a "drill down" feature provides an excellent tool for therapists, managers and other clinicians to manage care.
- Provides the ability to schedule by client or staff member and print their calendar all in one screen.
- Medicare A and B and Medicare Choice billing with Therapy Caps and Authorization Tracking for over limit billing. CPT units will update billing automatically.
- NCCI (National Correct Coding Initiatives) edits online.
- Recertification Due reporting.
- Ability to link file attachments or scanned documents.
