Learn about the first and ONLY Certified EHR in Long Term Care!

Answers™ Autumn 2011 is now ONC Certified by CCHIT!

On September 7th, 2011, AOD Software became the first and only certified Electronic Health Record (EHR) system specifically designed for Long Term Care. The certification test was conducted by the Certification Commission for Health Information Technology (CCHIT®) and was based on the criteria formulated by the Office of the National Coordinator (ONC) for the Federal EHR Certification program under the American Recovery and Reinvestment Act (ARRA).

What does this all mean for your facility?

Answers EHR Autumn 2011 has many features and capabilities to help you succeed at your facility. The areas tested by the ONC-ATCB test ensure that the system has:

- **A strong security backbone** – Everything ranging from appropriate access controls, automatic log-off, emergency access to authorized users, audit log and full integrity, authentication as well as secure encryption methods.
- **A solid Medication and Order Entry System** – Answers EHR offers a complete Computerized Provider Order Entry (CPOE) system to manage active medications, treatment orders, lab orders and much more!
- **Maintain accurate and complete documentation** – Documentation on everything from up-to-date problem lists, demographics information, advance directives and smoking status are all captured in one place for each of your residents.

First Certified EHR in Long Term Care

Answers EHR is backed by AOD Software, a financially solid company that not only keeps pace with the industry, but leads the pack in terms of functionality, deployment methods and regulatory changes. While many vendors make claims to be integrated systems, AOD has delivered the most comprehensive and truly integrated solution in the industry covering all aspects of a facility's needs including Financial General Ledger and related functions, Billing, Clinical Documentation, Operations and Facility Management functions as well as Point of Sale for dining rooms, Marketing and Fundraising software.

The Latest Technology – Always

With AOD, you are assured that your system will be up-to-date regularly. AOD consistently provides two major releases per year and countless updates to clients via the seamless Updates Manager. This means that facilities using AOD are always current with the latest industry regulations, including HIPAA 5010 and the newest regulations for MDS 3.0 as some current examples.

“With AOD, we have the latest and the greatest [regulatory changes] at a phenomenally faster rate than my peers can have it. Revenue is up 46%. This year we had a flawless survey. We have an 80% reduction in medication errors. We’ve been able to reduce our overtime hours. Anybody can do it! You can do it too!”

Pam Patterson, RN, Chief Nursing Administrator at The British Home

Flexibility to Work Your Way

Unlike other systems that force you into an unnatural workflow created of their own design, AOD is built to be flexible and accommodating to your business rules and internal procedures. AOD is deployed in a variety of methods, including secure Cloud environments. The entire system also runs on the latest platforms, including iPads and Android tablets. The power is yours to deploy Answers in a way that best fits your team.

“As strong supporters of the Long Term and Post Acute Care (LTPAC) industry, we are proud to be the first and only company with a certified EHR product specifically designed to serve this space. Once again, AOD clients can be confident that their EHR is up-to-date on the latest regulations and government certifications available in the healthcare industry.”

Charles George, CTO and VP of R&D

“We consider it our corporate responsibility to help solve societal healthcare challenges using advanced technology which allows our clients to both improve outcomes and reduce costs.”

Aric Agmon, President and CEO

“We believe this certification demonstrates that AOD Software is committed to the success of our clients as they partner with other providers looking to achieve more efficient meaningful use of systems that improve patient care across the entire spectrum of healthcare.”

Doc DeVore, Director of Clinical Informatics and Industry Relations

Answers EHR Autumn 2011’s certification number is CC-1112-833360-1. ONC-ATCB 2011/2012 certification conferred by CCHIT does not represent an endorsement of the certified EHR technology by the U.S. Department of Health and Human Services nor does it guarantee the receipt of incentive payments.
